- Easy to Install: displays are lighter and thinner, and incorporate the all new Hook & Hang bracket system
- Easy 4K input Daisy Chain up to 100 displays
- Compatible with ZDS Push Out Bracket or any VESA standard mounting bracket on the market
- Powerful ZD Wall Control software that allows you to switch inputs and layout configurations
- Fully functional remote control allows you to control each display from a single remote
- Temperature control and monitoring

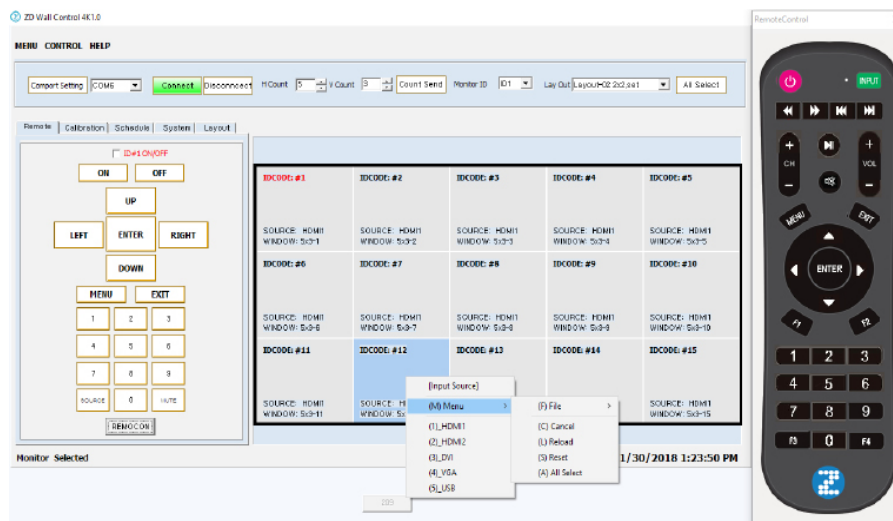

Hook & Hang mounting system - installation made quick, easy, and risk free

HH-Series Displays have four Mounting Hooks at the 600x400mm VESA position for Hanging onto the four holder rings that are attached to the mounting bracket. The mounting bracket can be the ZDS Pushout Bracket, or any mounting bracket of your choice.

Simply hang the light weight HH-Series display right out of the box - no need for bolting or screwing!

ZD Wall Control - Powerful video wall control software

Full control of video wall via PC:

- System Settings
- Color Calibration
- Input switching
- Layout configuration switching
- Scheduling of display on/off, backlight brightness and even layouts
- Cooling fan control with temperature sensor
- Control all or independent displays in a video wall with a single remote (digital and physical)
